

CARL ANTHONY
1217 Carleton Street
Berkeley, CA 94702
(917) 974-9451

Ethnicity: African American
Gender: Male

Curriculum Vitae

Carl Anthony is Founder of Breakthrough Communities, a project of Earth House Center to build multiracial leadership for sustainable communities in California and the nation. He has been a Senior Ford Foundation Fellow at U.C. Berkeley Department of Geography working on a book, ***The Earth, the City and the Hidden Narrative of Race*** examining the connections between fields of environmental justice, community development and the changing face of global urbanization. (Published by New Village Press, 2017.)

Prior to his present role, Anthony served as Acting Director of the Ford Foundation Community and Resource Development Unit, with a \$39 million annual budget, and supervisory responsibility for all of the Foundation's Program Officers in fields of community development and environment and development. From 2002 to 2006 he directed the Foundation's ***Regional Equity Demonstration***, a cross portfolio initiative that seeks to demonstrate the power of metropolitan regional approaches for addressing issues of poverty and environment in five metropolitan regions across the United States: Camden, NJ; Detroit, MI; Atlanta, GA; Baltimore, MD; and Richmond, CA. As a Program Officer, he was responsible for the Foundation's ***Sustainable Metropolitan Communities Initiative (SMCI)***, which seeks to build new leadership, and tools to promote economic competitiveness, ecological integrity and social equity in the America's metropolitan regions.

Before going to Ford in 2001, Anthony was Founder and Executive Director of Urban Habitat Program (UHP) to develop multicultural environmental leadership for urban social justice and urban ecological change in the San Francisco Bay Area. He was a convener of the Bay Area Alliance for Sustainable Development, working on a livability compact for 100 jurisdictions in the Bay Area. He was Co Chair of the Community Capital Investment Initiative which raised \$150 million double bottom line investment for brown field cleanup, small business development, and smart growth in the region. From 1991 until 1998, he was President of Earth Island Institute, an NGO working the conservation, preservation, and restoration of the biosphere.

From 1993 through 1995, Carl Anthony served as Chair and Principal Administrative Officer of the East Bay Conversion and Reinvestment Commission created by Congressman Ronald V. Dellums to plan for conversion of five military installations in Alameda County, and as a national pilot project to guide federal policy in conversion of several hundred military bases around the country.

Trained as an architect and town planner, Anthony received a professional degree in architecture at Columbia University. He began his professional career in the mid 1960's in Harlem, at Architect's Renewal Committee, the first community design center in the nation. On a William Kinne Fellowship, in 1970 he traveled in West Africa, making drawings and photographs of traditional towns and villages. This experience encouraged his respect for natural regions, the cycle of seasons, variations in cultures, climate and resources as determinants of the human habitat. He learned about timeless ways people with few resources shape environments to meet basic human needs to reflect human values.

PUBLIC SERVICE: Carl Anthony was a founder and first President of the Alameda Center for Environmental Technology. He was a member of the Presidio Council for the National Park Service advising on conversion of this 1,400-acre site into a new world class facility compatible with purposes of the GGNRA. He is a leader in efforts to diversify the environmental movement, and was an advisor to the United Church of Christ, Commission of Racial Justice on the 1st National People of Color Environmental Leadership Summit. He has served on the National Environmental Justice Advisory Council, Committee on Public Accountability, advising EPA on the implementation of President Clinton's Executive Order on Environmental Justice. From 1989 to 1992 he was President of the City of Berkeley Planning Commission. He has served on many other boards and commissions and is currently on the board of San Francisco Planning and Research and the Gamaliel Foundation.

TEACHING: In 1971, he was appointed Assistant Professor of Architecture at the University of California at Berkeley, conducting undergraduate and graduate studios, lectures, and seminars in energy conservation, site planning, social factors as design determinants of architectural form, supervision of masters and doctoral thesis work. He has been an adjunct at the Columbia University Graduate School of Architecture and Planning. He has served on the Visitors Committee, and as a member of the Environmental and Natural Resources Advisory Committee of the Stanford University Law School. He has been a faculty member at the College of Natural Resources at UC Berkeley, and a member of its Board of Advisors. In 1996 was appointed a Fellow at the Institute of Politics, Harvard University.

PUBLICATIONS AND RESEARCH: He has lectured widely, and authored many professional studies, reports and articles on the urban development, sustainable communities and environmental justice. With Luke Cole of the California Rural Legal Assistance Foundation, he was founder, publisher, and editor of the ***Race, Poverty and the Environment, A Journal for Social and Environmental Justice***. Since 1990, the journal has brought the voices and discussions of the environmental justice movement to a national audience. Selected recent and forthcoming publications are listed below.

Carl Anthony, Publications

Recent

Anthony, Carl, *The Earth, the City, and the Hidden Narrative of Race*. A meditation on how to rebuild our 21st century cities, suburbs, and rural areas in the US consistent with principles of sustainability. The African American historical experience is missing from dominant paradigms of environment and urban development in the United States. Overlooked dimensions of this historical experience are essential elements in the quest for urban and metropolitan sustainability. New Village Press, 2017.

Selected Earlier Publications on Environmental Justice and Sustainable Communities

Bay Area Alliance for Sustainable Development, ***E-Vision the Future, Draft Compact for a Sustainable Bay Area***, working together in the Bay Area to achieve and maintain a prosperous economy, a quality, environment, and social equity. The Compact outlines ten commitments to action for sustainability in the 9 county area. As a Co-convenor of the Alliance, and one of four members of its Steering Committee, Carl Anthony provided oversight and direction for this document, the purpose of which is to encourage and facilitate a regional conversation about a sustainable future for the Bay Area, July, 2000, San Francisco.

East Bay Conversion and Reinvestment Commission, ***Defense Conversion: A Road Map for Communities***, (240 pages), a \$1.5 million study, directed under contract with the Department of Defense at the request of Congressman Ron Dellums. As Chair and Principal Administrative Officer of the Commission, Carl Anthony was responsible and provided oversight for 31 special studies on public involvement, worker reemployment, community economic development, technology transfer, reuse, infrastructure an transportation, housing and social welfare, an remissioning the national laboratories. The final report recommends that sustainability ought to be the guiding principle for the conversion to peace time uses of military facilities around the country, Oakland, 1996.

Anthony, Carl, "Race, Poverty and Sustainable Communities." This essay is included in ***Challenges to Equality: Poverty and Race in America*** with a forward by Congressman John Lewis, 2001. It is published in a slightly different form by the Poverty & Race Research Council in its January/ February Newsletter, 2001.

_____, "Critical Connections: People and Resources, An Environmental Justice Perspective," This unpublished essay is based upon a report the Advisory Committee of the College of Natural Resources, Department of Resource Institutions, Policy and Management, U.C. Berkeley, May 13, 1999.

_____, "Ecology and Justice in the Global Age: Integrating the Vision." ***Terrain, California's Environmental Magazine***, Winter 1998.

_____, Forward, ***The Struggle for Ecological Democracy: Environmental Justice Movements in the United States***, edited by Daniel Faber, Guilford Press, New York, London, 1998

_____, "Suburbs are Making Us Sick: Health Implications of Suburban Sprawl and Inner City Abandonment." This essay was presented as a working paper as for ***The Environmental Justice Health Research Needs Report Series***, Atlanta: Environmental Justice Resource Center, 1998

_____, "Making Brownfields Bloom," ***Land and People***, The Trust for Public Land, Annual Report, Vol. 8, No. 2, Fall 1996.

Selected Publications: Urban Habitat Program

Communities Gaining Access to Capital: Social Equity Criteria and Implementation Recommendations for the Community Capital Investment Initiative (CCII), with PolicyLink and the National Economic Development Law Center. A regional initiative to mobilize business, community, environmental and government leadership to facilitate strategic capital investments for creating economic opportunity, reducing poverty and promoting sustainable economic development in forty six low-income neighborhoods in the Bay Area December, 2000, San Francisco.

There Goes the Neighborhood, A Regional Analysis of Gentrification and Community Stability in the San Francisco Bay Area. A look at where and how gentrification displaces low income residents and threatens communities of color in the region. Runaway Silicon Valley corporate development and the lack of affordable housing have brought a gentrification crisis to key communities in the region. 1999, San Francisco

Building Upon Our Strengths: A Community Guide to Brownfields Redevelopment in the San Francisco Bay Area. A working handbook for activists on brownfield redevelopment. Designed to provide both historical and environmental justice analyses for communities to select brownfield sites and implement projects. Includes directories of Bay Area stakeholders & other helpful tools. February 1999, San Francisco.

Crash Course in Bay Area Transportation Investment. Urban Habitat's analysis of the social equity and environmental implications of Bay Area regional transportation funding choices that favored suburban areas. With computer generated Geographic Information Systems maps, the study clearly shows that Bay Area transportation spending has fueled suburban sprawl, increased traffic congestion, air and water pollution, and failed to provide equal access to transportation. March 1999, San Francisco.

What If We Shared? The Urban Habitat Program's Findings for San Francisco Bay Area Metropolitcs: A Regional Agenda for Community and Stability, by Myron Orfield. This, a landmark document for Bay Area regionalism, is essentially a status report on the social, economic, and environmental health of our region. With color maps and commentary. May 1998, San Francisco.

San Francisco Bay Area Metropolitcs: A Regional Agenda for Community and Stability, by Myron Orfield. A detailed study of the nine county Bay Area, with data from the U.S. Census 1980 and 1990, Federal Highway Administration, California Departments of Finance and Education, local Police Departments and School Districts. A snapshot of the current health of the region's city center and inner suburbs, the extent and cost of suburban development, and projections for the future. Forty full color maps give a detailed picture of the overall health of the region. San Francisco. May 1998, San Francisco.

Working for Sustainable Communities. A joint project of the Urban Habitat Program and the Environmental Careers Organization, the guide proposes that a culturally diverse,

skilled and environmentally aware workforce is the key to building sustainable communities. 1998, Boston/ San Francisco.

Sustainability and Justice, A Message to the President's Council on Sustainable Development (PCSD), a collection of essays by community based activists, published by the Urban Habitat at Earth Island Institute and submitted to PCSD. 1994, San Francisco.

Race, Poverty, and the Environment. The Urban Habitat Program co-publishes the celebrated national journal, ***Race, Poverty and the Environment*** with the California Rural Assistance Foundation. ***RPE*** promotes the voices of the environmental justice movement, expanding the imagination and agenda of our communities, activists and organizers on issues of hunger and food security, urban revitalization, health, sustainability and justice, civil rights, immigrant rights, and the land. 1990-2001, San Francisco.

Urban Habitat Program, Projects

Bay Area Justice and Sustainability Project. By convening leaders from the Bay Area's most socio-economically and environmentally distressed communities, this project will develop and promote a regional agenda for justice and sustainability that proactively addresses the land use planning policies fueling suburban sprawl and inner city abandonment.

Leadership Institute for Sustainable Communities. The Urban Habitat Program has launched a leadership training program that provides emerging multicultural leaders in the Bay Area an opportunity to develop practical skills, expertise, and strategies around land use policies and practices, while strengthening critical thinking and creative vision regarding sustainable development for environmental justice.

Transportation and Environmental Justice Project. This project advocates changing the priorities of the Metropolitan Transportation Commission (MTC) and the Bay Area Air Quality Management District so that transportation investment decisions address the transit needs of urban communities of color and low-income communities, rather than contributing to suburban sprawl and health problems related to air pollution.

Brownfields Community Leadership Project. By meaningfully involving community leaders and residents in the development and planning of brownfields policies and programs, the Brownfields Project works with low-income communities of color around the Bay Area to insure that brownfields redevelopment addresses community economic development, public health, and other local needs.

Hunter's Point Environmental Health Project. Working in partnership with the Southeast Alliance for Environmental Justice, and Golden Gate University Environmental Law and Justice Clinic, Urban Habitat is organizing and training residents and community Leaders in Bayview Hunters Point on critical environmental health and justice issues and laws, in order to ensure that development planned for Bayview is socially just and community led.

Parks and Open Space for All People. Through this project, the Urban Habitat Program has participated in efforts to revitalize the San Francisco Parks system, focusing on the needs of under served low-income communities and communities of color. By working with our partners on the Presidio Alliance the project seeks to ensure that a diverse range of tenants and visitors will have access to the Presidio and other urban parks.

Carl Anthony

Selected Grantees from Sustainable Metropolitan Communities Initiative Portfolio at the Ford Foundation.

Alliance for Regional Stewardship. The Alliance for Regional Stewardship (ARS) is a national, peer-to-peer network of regional leaders working across boundaries to solve tough community problems. They come from business, government, education, and the civic sectors, but they share a common commitment to collaborative action and achieving results.

Architects, Designers and Planners for Social Responsibility (ADPSR). ADPSR works for peace, environmental protection, ecological building, social justice, and the development of healthy communities. We believe that design practitioners have a significant role to play in the well-being of our communities.

Atlanta Neighborhood Development Partnership (ANDP). The mission of ANDP is to promote, create and preserve mixed income communities through direct development, lending, policy research and advocacy that result in the equitable distribution of affordable housing throughout the metropolitan Atlanta region.

Bay Area Council. The Bay Area Council is a business-sponsored, public-policy advocacy organization for the nine-county Bay Area. The Council proactively advocates for a strong economy, a vital business environment, and a better quality of life for everyone who lives in the San Francisco Bay Area.

Bethel New Life. The Bethel New Life Mission is to realize God's vision of a restored society by empowering individuals, strengthening families, and building neighborhoods through community-driven, solution-oriented, and value-centered approaches.

Brookings Institution, Metropolitan Policy Program. . Created in 1996, the Brookings Institution's Metropolitan Policy Program provides decision makers with cutting-edge research and policy ideas for improving the health and prosperity of cities and metropolitan areas.

Building Partnerships USA. Building Partnerships USA helps grassroots leaders find the common ground and common agenda they need to change the balance of power in their regions--and put the broader public interest back in public policy.

Center for Community Change. The mission of the Center for Community Change is to build the power and capacity of low-income people, especially low-income people of color, to change their communities and public policies for the better.

Center for Justice and Tolerance. The Center for Justice, Tolerance, and Community (CJTC) at UC Santa Cruz is a progressive, applied research institute that focuses on

issues of social and economic justice, dialogues across diversity, and the building of collaborative communities.

Center for Neighborhood Technology (CNT). CNT is a creative think-and-do tank that combines rigorous research with effective solutions. CNT works across disciplines and issues, including transportation and community development, energy, natural resources, and climate.

Coastal Community Foundation of South Carolina. The mission of Coastal Community Foundation is to foster philanthropy for the lasting good of the community. The foundation is committed to taking the broadest perspective of community, as seen through our extensive nonprofit involvement and initiatives, ranging from arts or health-related organizations to education programming, conserving the environment, strengthening neighborhoods and satisfying human needs.

College of Natural Resources, University of California. The College of Natural Resources (CNR) addresses biological, social, and economic challenges associated with protecting natural resources and the environment. CNR's undergraduate academic programs teach students how to ensure economic and ecological sustainability for future generations.

Commonweal. Commonweal is a nonprofit health and environmental research institute in Bolinas, California. Founded in 1976, Commonweal conducts programs that contribute to human and ecosystem health — to a safer world for people and for all life.

David Rusk. David Rusk is an author, speaker, and consultant on urban policy. His basic theme is how urban sprawl, racial segregation and concentrated poverty interact and compound a region's growth patterns, social equity, and quality of life. A former mayor of Albuquerque and state legislator, he is a strong champion of regional strategies, particularly growth management, mixed income housing, and tax base sharing.

Earth House. The mission of Earth House, in Oakland, California, is to build healthy, just, and sustainable communities through education, training and multi-media communication tools. Earth House was founded in 1990, and currently conducts local, national and international projects in a variety of print and visual media.

East Bay Alliance for a Sustainable Economy. The East Bay Alliance for a Sustainable Economy advances economic and social justice by building power and raising standards for working families.

East Bay Community Foundation. The East Bay Community Foundation is a leading resource for mobilizing financial resources and community leadership to transform the lives of people with pressing needs in the East Bay region of the San Francisco Bay Area.

Eco Village Farm and Learning Center of Richmond California. Eco Village is a model for growing healthy youth and healthy communities. It seeks to broaden the range

of people involved in environmental and social justice work to include urban residents and people of various cultural backgrounds.

Enterprise Community Partners. Enterprise Community Partners creates opportunity for low- and moderate-income people through fit, affordable housing and diverse, thriving communities. Central to Enterprise's mission is a fundamental commitment to give people living in poverty an opportunity to move up and out. Enterprise believes that these opportunities are best provided in communities with a diverse mix of affordable and market housing options, access to jobs and social supports, and a strong commitment to the environment and civic participation.

Environmental Justice Resource Center (EJRC) EJRC at Clark Atlanta University was formed in 1994 to serve as a research, policy, and information clearinghouse on issues related to environmental justice, race and the environment, civil rights and human rights, facility siting, land use planning, brownfields, transportation equity, suburban sprawl and smart growth, energy, global climate change, and climate justice. The overall goal of the center is to assist, support, train, and educate people of color students, professionals, and grassroots community leaders with the goal of facilitating their inclusion into the mainstream of decision-making.

Film Arts Foundation. Founded by independent filmmakers in 1976, Film Arts Foundation was an inspirational leader in the media arts field for more than 30 years, providing comprehensive training, equipment, information, consultations and exhibition opportunities to independent filmmakers across the Bay Area.

Good Jobs First. Good Jobs First is the nation's leading resource center for grassroots groups and public officials seeking to make economic development subsidies more accountable and effect. Good Jobs First also promotes smart growth policies that enhance the well being of working families.

Greater Baltimore Urban League. The Greater Baltimore Urban League, Inc. (GBUL) is one of the local affiliates of the National Urban League - a nonprofit, nonpartisan, multi-ethnic, social service organization. Through direct service delivery, advocacy, referrals, community capacity building, information dissemination and technical assistance, the League accomplishes its mission to improve social and economic conditions and opportunities for African-Americans and other people who face barriers to full participation in American Society.

Harvard Project on Civil Rights. The mission of the Civil Rights Project at Harvard University is to help renew the civil rights movement by bridging the worlds of ideas and action, to be a preeminent source of intellectual capital within that movement, and to deepen the understanding of the issues that must be resolved to achieve racial and ethnic equity as society moves through the great transformation of the 21st century.

Industrial Areas Foundation. The leaders and organizers of the Industrial Areas Foundation build organizations whose primary purpose is power - the ability to act - and

whose chief product is social change. They continue to practice what the Founding Fathers preached: the ongoing attempt to make life, liberty, and the pursuit of happiness everyday realities for more and more Americans.

Institute on Race and Poverty. The Institute on Race & Poverty (IRP) at the University of Minnesota investigates the ways that policies and practices disproportionately affect people of color and the disadvantaged. A core purpose for IRP's work is to ensure that people have access to opportunity. Another is to help the places where people live develop in ways that both promote access to opportunity and help maintain regional stability.

InterValley Project (IVP). IVP, a New England organizing network, offers a national model of community economic empowerment. Its regional organizations of congregations, labor union locals, community and tenant groups combine citizen organizing and democratic economic development strategies to save and create jobs, affordable housing and critical public services in some of the oldest and poorest industrial areas in the nation.

Kirwan Institute for the Study of Race and Ethnicity The central mission of the Kirwan Institute, at the University of Ohio, is to contribute meaningfully to the field of research and scholarship on race, ethnicity and social justice, to assist in reframing the way that we talk about, think about and act on race and ethnicity, and to deepen the understanding of the causes and consequences of and solutions to racial and ethnic hierarchy and disparity so that we can envision and realize a society that is fair and just for all people, where opportunity is not limited by race, ethnicity, gender, or class, where democratic ideals inform social policy, and where all people recognize and embrace the universal responsibility that each person has for the welfare of every other person.

Manpower Development Research Center. Created in 1974 by the Ford Foundation and a group of federal agencies, MDRC is best known for mounting large-scale evaluations of real-world policies and programs targeted to low-income people.

Metropolitan Organizing Strategy Enabling Strength (MOSES). MOSES, a group of diverse congregations, organizes communities, develops leaders and builds relationships to advocate for social justice. MOSES is widely recognized as the most effective, influential and diverse grassroots organization in Michigan.

National Economic Development Law Center (NEDLC). NEDLC is national research and consulting organization dedicated to building economic health and opportunity in vulnerable communities. We partner with a diverse range of colleagues to develop innovative strategies and programs that result in systemic change and help people become—and remain—economically secure.

New Jersey Regional Coalition. The New Jersey Regional Coalition is a faith-based, grassroots coalition of groups from throughout New Jersey devoted to the idea that

everyone who lives in the state has a stake in its economic and social well-being, and of all the communities within it. The existence of distressed and impoverished communities within New Jersey affects all residents, through increased crime, increased taxes, reduced economic growth, and a tendency for blight and poverty to “creep” into other towns. Thus the imperative to work together for the common good derives both from deeply held values, notably concern for others, and from simple self-interest.

New Village Press. New Village books serve the interdependent fields of social justice, participatory planning, community building, ecology, and community-based arts. The Press crosses boundaries between professional, academic and informal education with books that engage practitioners and community activists working together to rebuild neighborhoods. Most significantly, New Village Press books go beyond abstract policy and present the human story, the motivations that stir the soul to make a certain part of the world a better place to live.

PolicyLink. PolicyLink is a national research and action institute advancing economic and social equity by Lifting Up What Works. Founded in 1999, PolicyLink connects the work of people on the ground to the creation of sustainable communities of opportunity that allow everyone to participate and prosper. Such communities offer access to quality jobs, affordable housing, good schools, transportation, and the benefits of healthy food and physical activity.

Pratt Center for Environment and Community Development (PCECD). The Pratt Center works for a more just, equitable, and sustainable city for all New Yorkers. . The Pratt project has been a story about building community: constructing playgrounds and day care centers; fostering community agriculture, greenways and green building; bringing diverse communities together around the table to find common purpose in planning.

Redefining Progress. Redefining Progress is the nation’s leading public policy think tank dedicated to smart economics. We find solutions that ensure a sustainable and equitable world for future generations, developing innovative policies that balance economic well-being, environmental preservation, and social justice.

Regional Plan Association. The Regional Plan Association (RPA) is an independent, not-for-profit regional planning organization that improves the quality of life and the economic competitiveness of the 31-county New York-New Jersey-Connecticut region through research, planning, and advocacy. For more than 80 years, RPA has been shaping transportation systems, protecting open spaces, and promoting better community design for the region's continued growth. We anticipate the challenges the region will face in the years to come, and we mobilize the region's civic, business, and government sectors to take action.

The Reinvestment Fund (TRF). TRF is a national leader in the financing of neighborhood revitalization. What began in 1985 as a small community development organization working in Greater Philadelphia, has evolved into a progressive, results-

oriented, socially responsible community investment group that today works across the Mid-Atlantic region.

The San Francisco Foundation. The San Francisco Foundation is a leading agent of Bay Area philanthropy. It ranks among the largest of the nation's community foundations in grant making and assets. It cultivates a family of donors who share a commitment to the Bay Area. Together, the San Francisco Foundation gives millions of dollars a year to build on community assets, respond to community needs, and elevate public awareness.

Smart Growth America. Smart Growth America is a coalition of national, state and local organizations working to improve the ways we plan and build the towns, cities and metro areas we call home. The coalition includes many of the best-known national organizations advocating on behalf of historic preservation, the environment, farmland and open space preservation, neighborhood revitalization and more. Our state- and regional-level members are community-based organizations working to save treasured landscapes while making our towns and cities ever more livable and lovable.

Surface Transportation Policy Project. The Surface Transportation Policy Project is a diverse, nationwide coalition working to ensure safer communities and smarter transportation choices that enhance the economy, improve public health, promote social equity, and protect the environment.

Rochester Institute of Technology, Science, Technology and Society Department. Rochester Institute of Technology (RIT) is a nationally respected leader in professional and career-oriented education. Talented, ambitious, and creative students of all cultures and backgrounds—and from 50 states and more than 95 countries—have chosen to attend RIT. Science, Technology, and Society—"STS"—is the interdisciplinary field that studies science and technology in their social content and context. It is motivated by the belief that understanding science and technology, past and present, is both socially important and intellectually challenging. The STS field thus offers unique opportunities for bridging the humanities, social sciences, natural sciences, and engineering.

Urban and Environmental Policy Project. The Urban and Environmental Policy at Occidental College is a unique combination of classroom learning and hands-on experience in public affairs and civic action. Students learn the skills of public policy analysis with special emphasis on applying those skills in the real world. Urban and Environmental Policy includes such topics as housing and community development, public health, land use and transportation, poverty and social welfare, food and resource issues, air and water, criminal justice, race and gender relations, class relations, and other topics at the local, national and international levels.

Urban Habitat Program. Urban Habitat builds power in low-income communities and communities of color by combining education, advocacy, research and coalition building to advance environmental, economic and social justice in the Bay Area. Founded in 1989, Urban Habitat's builds bridges between environmentalists, social justice advocates, government leaders, and the business community. UHP's work has helped to broaden and

frame the agenda on toxic pollution, transportation, tax and fiscal reform, brownfields, and the nexus between inner-city disinvestments and urban sprawl.

West Harlem Environmental Action. West Harlem Environmental Action, Inc., (WE ACT) is a non-profit, community-based, environmental justice organization dedicated to building community power to fight environmental racism and improve environmental health, protection and policy in communities of color. WE ACT accomplishes this mission through community organizing, education and training, advocacy and research, and public policy development.

Working Partnerships, USA (WPUSA). WPUSA was founded in 1995 as a coalition of community groups, labor, and faith organizations seeking a response to the widening gap between the rich and poor in Silicon Valley. Our mission is to address the needs of working people through strategic initiatives that build the institutional power of working class communities, reframe issues, and create replicable models for progressive action.

Carl Anthony

Selected Presentations, Briefings and Lectures / 1993-2000

- May 13, 1999, 'Conservation and Context, Critical Connections of People and Resources: An Environmental Justice Perspective," A Presentation for the Advisory Committee of the College of Natural Resources, Department of Resource Institutions, Policy, and Management, University of California at Berkeley
- January 16, 1999, "The National Park Service Needs a New Story," A Keynote Talk Conference on America's Parks—America's People, Breaking Barriers of Race and Diversity in Our National Parks.
- October 10, 1998—"Environmental Justice and the Cities," Keynote Address For the Annual Conference of the Staff of Natural Resources Defense Council, Wilkes Barre, Pa
- August 1, 1998, "The Quest for Ecological Justice, The Road Not Taken," Conference on California Environmental History, Green Versus Gold, U.C. Santa Cruz.
- June 1, 1998, Social Movements, Government Initiatives, and The Right To Sustainable Development, Statement To The Conference On Ethics And The Culture Of Sustainability: Building A Sustainable Economy, Havana, Cuba.
- November 14, 1997, "Putting Communities Back On Their Feet, Who We Are, Where We Are & What We Can Do About the Impacts," Local Government Commission Conference, Los Angeles, Ca
- November 2, 1997, "Nature and Society, Practical Solutions for Restoring the Earth," Plenary Presentation, Bioneers Conference, San Francisco, Ca
- October 25, 1997 Environmental Justice and Community Food Security, Conference Round Table, UCLA.
- May 23, 1997, "Fighting Sprawl & Inner City Abandonment: A Strategy for Environmental Justice," Commencement Address University of California Energy & Resources Group, Berkeley, Ca
- April 12, 1997, "Globalization and Race, Reports from the Bioregion, International Forum on Globalization," Berkeley, Ca.
- January 25, 1997, "The Landscape of Freedom, Race, Trauma, and the Land," A Dialogue with Chellis Glendinning" GAIA Books, Fort Mason Center, San Francisco, CA

- July 19, 1996 "Environment, Psychology, and the Deconstruction of White Racism," A Talk For the Institute of Noetic Sciences
- May, 1996, "A Dialogue With David Brower, "Harvard University, School Of Divinity, Cambridge, Ma
- March 6, 1996, Environmental Justice, Occupational Health and Safety, John F. Kennedy School of Government Harvard,
- Feb-April, 1996, Led Seminar On "Transportation and Environmental Justice," Institute Of Politics, JFK School of Government, Harvard University, Cambridge, Ma
- November 18, 1994, "Regional Solutions for Regional Problems," Congress for a New Urbanism, San Francisco, CA,
- October 20, 1994, "Population, Migration and Environmental Justice: African American Perspectives on Immigration," National Network for Immigrant Rights, San Francisco, CA.
- September 25, 1994, "Societal Issues Confronting Environmental Scientists," Switzer Fellowship, Annual Meeting, San Francisco Foundation, San Francisco, CA.
- September 21, 1994, "Sustainability and Economic Conversion," Energy and Resources Group Colloquium, University of California, Berkeley, CA.
- September 19, 1994, "Seminar on the California Economy," Organized by Senator Barbara Boxer, Briefings With Key Policy Leaders Including Economic Advisor, Laura Tyson, Trade Ambassador, Mickey Kantor, Commerce Secretary Ron Brown, Senator Bill Bradley, Washington, DC.
- June 2-4, 1994, Opening Remarks: "What Brings Us Together," Plenary Presenter: "Sustainable or not Sustainable: Uncovering the Roots and Creating New Models." Conference on Defining Sustainable Communities, Berkeley, CA
- May 21, 1994. Keynote Address: "Race, Place, and Environmental Justice," Keynote Commencement Address, Graduation Ceremony, Department of Geography, University of California, Berkeley, CA.
- May 18, 1994, Panelist, "The Role of Citizens in Protecting America's Parks in the 21st Century: A Multicultural Perspective," 75th Anniversary Forum, National Parks and Conservation Association, San Francisco, CA.

May 7, 1994, Panelist, " Military Base Conversion and the Public Trust: Opportunity or Threat. Protecting the Bay Commons, Save San Francisco Bay Association. Boalt Hall, U.C. Berkeley, Berkeley, CA.

April 24, 1994, "Conversion: Ethical Choices for Healthy Communities," Ecology Center, 25th Anniversary Celebration, Berkeley, CA.

April 15, 1994, ""Global Healing-94" Keynote Speaker, One Earth, One People, One Fate, Sacramento State University, Sacramento, CA

April 4, 1994, "Environmental Injustice," ES 198, Contemporary Topics In Environment, Health and Safety, Professor William Berry, Environmental Sciences, U.C. Berkeley, Berkeley, CA

March 13, 1994, " Integrating Environmental Ethics: Diversity, Justice, and Natural Resources," Keynote Speech, Closing Session, 1994 Public Interest Environmental Law Conference, University of Oregon, Eugene, OR.

March 7, 1994, "Base Closures In the San Francisco, Bay Area," Leadership Oakland, Chamber Of Commerce, Oakland, CA

February 26, 1994, Keynote Speech, "What's Actually In Our Backyard?" Conference sponsored by Community Coalition for Environmental Justice, Seattle, Washington.

February 21, 1994, "Environmental Issues Facing People of Color, "New College, San Francisco, CA,

February 18, 1994, "Peace, Jobs & the Environment: A Regional Roundtable on Bay Area Base Closures and the Economic Needs of Local Communities," The Urban Institute, San Francisco State University and Business Executives for National Security, San Francisco, CA.

February 17, 1994, "Impact of Bay Area Military Base Closures and Opportunities for the Future," Chevron Corporation and the Port of Oakland, Oakland, Ca.

February 15, 1994, "Briefing on National Service Programs" Meeting of Eight National Environmental Leaders with Vice President Al Gore, Washington, DC.
January 19, 1994, "Environmental Justice," Asia Foundation. San Francisco, CA.

December 12, 1993 "Tribunal on Native American Sovereignty, "Tonanzin Institute, Albuquerque, NM.

- December 9, 1993, "Race, Place, and Sustainability," Healthy Cities Conference, San Francisco, CA.
- December 6, 1993. Reclaiming Our Cities, Bay Area Organizers Roundtable on the Urban Crisis, Co-sponsored by progressive Bay Area publications, Crossroads, Equal Means, Groundwork, San Francisco Women's Building, San Francisco, CA.
- November 15, 1993. "Economic Conversion in Alameda County: Briefing for Pilot Projects," Office of Economic Adjustment, Washington, DC.
- November 12, 1993, "Race, Place and Sustainability, "Defining Sustainable Communities, -- Conference Planning Session, Washington, DC.
- October 27, 1993, Office of Economic Adjustment, Conference on Military Base Closures

Selected Interviews, 1990 – 2000

Carl Wilmsen, *Interview with Carl Anthony*, Regional Oral History Office, Bancroft Library, U.C. Berkeley, Spring, 2000.

Sandra van Gelder, "Diverse, Beautiful, Green Cities, an interview with Carl Anthony. Inner cities, blue-collar suburbs, and environmentalists have more in common than they think when it comes to cities." *Saying Yes, Conversations on a World that Works for All, reprinted from Yes, A Journal of Positive Alternatives*, Summer 1999.

Pottenger, Dennis, "Urban Crusader, The Best of Names, San Francisco," *San Francisco, Focus on the Bay Area*, San Francisco, CA, January, 1998,

Gilliam, Harold, "Carl Anthony. The head of the Earth Island Institute's Urban Habitat Program is an environmentalist who strives to interweave the traditions of Martin Luther King and John Muir." Sunday Interview, *San Francisco Chronicle*, March 24, 1996, p. 3.

Ted Roszak, interview with Carl Anthony "Ecopsychology and the Deconstruction of Whiteness," in *Ecopsychology, Restoring the Earth, Healing the Mind*, edited by Ted Roszak, Mary Gomes and Allen D. Kanner, Sierra Club Books, 1995.

Bruce Allen, "On Ecology, Equality and the Economy: A Discussion with Carl Anthony," *Positive Alternatives, Center for Economic Conversion*, Vol. 3 No. 4, Mountainview, CA, Summer 1993.

Laura Hagar, "Shades of Green," Can the environmental movement expand to address the concerns of the nonwhite, non middle-class? African American environmentalist Carl Anthony insists it must. Cover story, *East Bay Express*, Oakland, CA, April 12, 1991.

Veronica Froelich, "Eco-Justice, The Coming together of Ecology and Social Justice," *Prout Journal*, "Summer 1990.

Suzanne Freidberg, Carl Anthony. Carl Anthony may be an architect and urban planner by profession, but he is a bridge builder by nature, a member of that rare but growing breed of activists and thinkers who never considers the cities without the countryside, or the humans without the trees. The making of this East Bay urban ecologist stretches over thirty years and two continents. *Ecology Center Newsletter*, May 1990.

Selected Boards, Commissions, and Awards

- 1997 –2001 Co-Convener, Bay Area Alliance for Sustainable Development, Convener and Chair, Social Equity Caucus.
- 1999 – 2001, Co-Chair, Community Capital Initiative of the Bay Area Alliance for Sustainable Development
- 1999 – 2000, Member, Speaker’s Commission on State and Local Finance, State of California.
- 1998 – 2000, Santa Clara Center for Occupational Safety and Health, SCCOSH
- 1998 – Member, San Francisco Foundation, Leadership Awards Committee
- 1998 – Member, Earth Justice Legal Defense Fund, Sutherland Fund Committee
- 1998 – Member, Advisory Council, Mesa Refuge
- 1998 – Board Member, Oakland Metropolitan Forum
- 1998 - Member, University of California, College of Natural Resources, Advisory Council
- 1998 - Board Member, California Oak Foundation
- 1997 - Member, Regional Planning Committee, Association of Bay Area Governments
- 1997- 1998, Member, Technical Advisory Committee, California Center for Land Recycling
- 1997, Josephine and Frank Duveneck, Humanitarian Award
- 1996 – Board Member, National Indian Justice Center, California Indian Museum
- 1996 – 1997, President, Board of Directors, Alameda Center for Environmental Technology
- 1996 – 1997, Board Member Progressive Asset Management
- 1996 - Member, Trust for Public Land, National Advisory Council
- 1996, Fellow, John F. Kennedy School of Government, Harvard, University
- 1995 –1997, Member, Committee on Public Participation, National Advisory Council on Environmental Justice
- 1995, San Francisco Foundation, Humanitarian Award
- 1995 KQED, Honoree, Black History Month
- 1993 – 1996, Chair and Principal Administrative Officer, East Bay Conversion and Reinvestment Commission
- 1993 – 1995, Founder, President, EDGE, Alliance of Ethnic and Environmental Organizations of California
- 1991 –1993, Member, Presidio Council, National Park Service
- 1991 - 1993, President, City of Berkeley, Planning Commission
- 1990 - 1998, President, Earth Island Institute
- 1990 - Member, Urban Ecology, Advisory Board
- 1990 - Member, Advisory Council, Commencement 2000
